THE LOGIC MODEL
A ROADMAP FOR IMPACT

WHAT IS A LOGIC MODEL?

A logic model is a planning and evaluation tool that visualizes data and tracks program evaluation plans. Logic models show linear connections between program activities and their intended student learning outcomes.

COMPONENTS

Inputs are the resources that go into a program or intervention—**what we invest**.

Activities are events undertaken by the program or partners to produce desired outcomes—**what we do.**

Outputs are the direct, tangible results of activities—**what we get**.

Outcomes are the desired results of the program—**what we achieve**. They are categorized as Foundational, Intermediate and Advanced based on the level, intensity and/or skill achievement needed to master the learning outcome.

DIVISION-WIDE THEORETICAL FRAMEWORKS

Each department within the Division of Student Affairs utilizes the following values and frameworks when teaching and measuring student learning outcomes.

UNT SYSTEM VALUES

Courageous Integrity   Be Curious   We Care   Better Together   Show Your Fire

NACE CAREER COMPETENCIES/MARKETABLE SKILLS

The National Association of Colleges and Employers created a list of eight marketable skills employers want to see if new employees. The eight career competencies they created are:

Career and Self-Development	**Leadership**
Critical Thinking	**Professionalism**
Communication	**Teamwork**
Diversity and Inclusion	**Technology**

UNT WELLNESS WHEEL

Focusing on the physical, social and mental wellbeing of our university community is a top priority. Now, more than ever, it is important to take time to care for yourselves and each other.
