May 22, 2019

Dear Dominique:

Thank you sending over the latest SGA legislation. While I signed your legislation, I feel it’s important to provide additional information on two specific pieces of legislation.

_S2019-R7: Harm Reduction and Education:_ Alcohol Edu, which all new students currently must complete prior to starting at UNT includes information on harm reduction education. I’m not sure we need to seek an additional training for students. Additionally, we need to be mindful of all we are asking students to complete prior to starting at UNT. Currently, they complete Pre-Orientation Homework, which includes completing the MyPlan and Engage assessments, Haven, and Alcohol Edu.

_S2019-R10: Counseling and Testing Center Long Term Services:_ Counseling and Testing continues to see students as long as necessary. There are times a student’s needs may exceed capabilities within Counseling and Testing Center, but this is rare. We will seek to better accommodate our Frisco students.

Please include a copy of this letter with the legislation when posted on the SGA website or archived.

Sincerely,

Elizabeth With, Ed.D.
Vice President for Student Affairs
