Share the Virtual Link below with up to 30 friends. They can play virtual bingo on any device or print out their bingo card.

**Virtual Link:** [mfbc.us/m/q9ktzz](https://mfbc.us/m/q9ktzz)

Everyone who follows this link will get one of 30 random bingo cards. It's possible that two players will get the same bingo card.

If you want to make sure everyone gets a different bingo card you can send out these **individual links**.

If you have more than 30 players **choose a paid option**. Each player will get a link to their own unique bingo card that they cannot change, and we provide a tool to quickly send out individual links by email. See a demo **here**.

- Send out the **individual links** to each person through their email.
- For the first round:
  - Explain that participants need a straight line to get a Bingo!
  - Have participants only mark their board when you call out the word/phrase and they have done the thing you call out + have it on their board
- For the second round:
  - They will need two lines to get a Bingo!
  - You can have them mark the word/phrase even if they have not done it.
