Event Applications

As we approach the middle of the semester, we’re seeing a trend of student orgs submitting time-sensitive event applications. As we have at least 100 event applications in the queue at any one time, it is important to meet the deadlines to ensure your event application has enough time to get through the process.

As a reminder, event applications should be submitted* at least 5 business days in advance of the requested date, and 15 business days in advance if the event is deemed potentially risky, which is at the discretion of Student Activities, not the student org. If you’re not sure if it’s risky, we strongly encourage you to submit it at least 15 business days in advance. Failure to follow deadlines increases the chances of the event application being denied, not receiving the requested space, or the requested date being postponed.

For more info, visit our event info page [here](#) and click on event applications.

*Note that an event application isn’t considered “submitted” until both the president and advisor approve it.

Student Activities' Student Org Funding is for items and activities that are not eligible to be funded by the above options. The process is simple and could include organizational teambuilding activities, supplies, promotional materials, and virtual professional development opportunities. The application is requested at least 10 business days in advance in most cases.
