Restaurant Fundraisers

A common fundraising tactic is with local restaurants. Opportunities vary, but most often, restaurants will designate a certain timeframe where your organization can receive a percentage of the profit. Here is a list of restaurants that may sponsor some type of fundraising that allows orgs to receive a percentage of the profits.

**Spring 2021 -** When promoting fundraisers, orgs are to emphasize the takeout and delivery options. Anything that appears to be an organization-coordinated in-person activity can be seen as violating university directives, so I would not recommend using organizational channels to communicate activities that bring students together, promote in-person transactions, or go against guidelines unless you are stressing the online aspect. If members are getting together anywhere, especially if not following CDC guidelines and executive orders, if it is seen, it could be sent to Conduct to hold the organization and organization leaders accountable. Further event guidelines can be found here- https://studentaffairs.unt.edu/student-organizations/manage-your-organization/events

For more information, reach out to your desired host (opportunities may vary).
